Resolutions Restricting Lighting In Bay St. Louis, Hancock County Adopted

Board of Supervisors And Mayor and Commission Council Act At Request of Military Authorities—Follows Rules and Regulations Issued by 4th Corps Area

The Board of Supervisors of Hancock County and the Mayor and Commissioners of the City of Bay St. Louis, on Wednesday, July 15th, adopted resolutions, restricting lighting in Bay St. Louis and Hancock County, pursuant to a proclamation issued by Lieutenant General Walter Krueger, Commanding the Southern Defense Command, declaring coastal areas, which included the three coastal counties of Mississippi, as a Military Area and pursuant to the rules and regulations for the control of shore lighting along the shore line of the State of Mississippi, as issued by the Office of the Corps Area Commander of the Headquarters Fourth Corps Area of the United States Army.

This resolution was presented to this Board by Major F. C. Ash of Camp Shelby. The order as adopted by the Board of Supervisors and Commission Council, takes effect and is in force from and after its adoption. The restrictions prescribed in said resolution are as follows:

"NOW, THEREFORE, BE IT ORDAINED AS FOLLOWS:

SECTION 1. The restrictions hereinafter prescribed shall apply for a distance of ten miles inland from the shore line, within the territorial limits of Hancock County, Miss.

SECTION 2. PROHIBITED LIGHTING: The following types of lighting are prohibited within the area designated in SECTION 1 above:

(a)—Illuminated signs—neon or other.

(b)—Flood lights on top of or otherwise illuminating buildings or monuments.

(c)—Bright illumination at baseball games, football games, race tracks, public tennis courts, and other such places of amusement.

(d)—Exterior lighting, except street lights, within 500 yards of the shore line.

(e)—Bonfires and all other forms of lighting on beaches.

SECTION 3—RESTRICTED LIGHTING: Outside lighting within the area designated in SECTION 1, above, will be restricted as follows:

(a)—Street lights will be shaded from above and where visible from the sea will be blacked out on the seaward side. Wattage will be reduced to a minimum consistent with public safety.

(b)—Where street lights shine upon reflecting surfaces, such lights will be further shaded, or surfaces will be neutralized by painting or by other methods.

(c)—Illumination of show windows, store fronts, theater fronts, filling stations, etc., which are more than 500 yards from the shore line will be reduced to an absolute minimum.

SECTION 4—INTERIOR LIGHTING: Interior lighting will be restricted as follows:

(a)—All of that portion of all dwelling houses, apartment houses, hospitals, hotels, tourist camps and other places used for dwelling purposes, within 500 yards of the shore line, shall be blacked out above the second floor on all sides, except that side away from the shore line.

(b)—All buildings within 500 yards of the shore line, not included in Sub-section (a) next above, shall be blacked out above the first floor on all sides except that side away from the shore line. The interior lighting on the first floor of such buildings shall be reduced to a maximum of six foot candles, as measured by a standard foot candle meter, held at an angle resulting in the highest possible reading at a distance of six feet from the window or other opening.

SECTION 5—MOTOR VEHICLES: (a)—Motor vehicles are prohibited on beaches at night. (The word "Beaches," as used herein, shall not be construed to include streets and roadways now in existence used by the public.)

(b)—No bright headlights or spotlights will be permitted on highways or streets within 500 yards of and paralleled to the shore line. DIMMED LIGHTS ONLY WILL BE PERMITTED.

(c)—Parking lights only shall be used within a distance of 500 yards of the shore line when a vehicle is facing seaward.

SECTION 6—SIGNALLING: All persons are warned to exercise extreme care in the use of lights in order to avoid any suspicion of signalling.

SECTION 7: Any lights or system of lights not included in the above and which are determined by proper military or naval authority to be objectionable shall be dimmed or eliminated.

SECTION 8: All the above restrictions shall be effective only during the period 30 minutes after sunset and ending 30 minutes before sunrise the following morning.

SECTION 9—These restrictions will be in no way construed as supplementing or replacing existing air raid instructions on blackouts.

SECTION 10—The rules, regulations and restrictions upon lighting herein prescribed shall prevail during the period of the war or so long as the rules adopted by the military or naval authorities of the United States do not conflict herewith. The provisions of this ordinance shall not be applicable to the area within any Military or Naval establishment operated under the direction or supervision of the United States Military or Naval authorities, the regulation of which shall be by the Military and Naval authorities of the United States Government.

SECTION 11—PENALTIES FOR VIOLATION: Any persons, firms, or corporations violating any of the provisions of this order shall be guilty of a misdemeanor and upon conviction thereof shall be fined not exceeding \$100.00 or imprisoned for not more than 30 days, or both.

SECTION 12—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

LOCAL BOY HOME ON 10-DAY FURLOUGH

SGT. WM. EDWIN MARQUEZ, Sergeant William Edwin (Eddie) Marquez of the 850th School Squadron, Army Flying School, Lubbock, Texas, is home on a ten-day furlough.

Eddie entered the service of his country on August 22nd, 1941. After spending two weeks at Camp Shelby, he transferred to Keesler Field at Biloxi, where he studied ground mechanics. On February 1st, 1942, he was sent to the Army Flying School at Lubbock, Texas, as a crew chief. He is a graduate of Bay High School and the youngest son of Mrs. Katherine Marquez and the late Wm. E. Marquez of this city.

News reaches us this week of the death of Mr. John C. Stowers, father of Mr. Sam W. Stowers, former County Agent of this county.

Mr. Stowers died at his plantation home near Natchez, Mississippi, on July 10th. He was one of the most successful planters of that section of the State. He was born at Oakland Plantation on February 8th, 1876, and spent his entire life there.

He is survived by his widow, Mrs. Ida Wells Stowers and his children: Capt. John N. Stowers, Camp Swift, Texas; Lieutenant Commander W. K. Stowers, United States Naval Hospital, San Diego, California; Major James C. Stowers, Vicksburg, Mississippi; Doctor Robert C. Stowers of Pine Ridge near Natchez.

Funeral services were held from the Pine Ridge Presbyterian Church on Saturday, July 11th.

The many friends of Sam Stowers in Hancock County deeply regret receiving the news of the death of his father. This young man had ingratiated himself with the people of Hancock County during the time that he served as their County Agent. He left this service due to the illness of his father, and having to take over the running of the family plantation near Natchez.

We extend to the Stowers family our deepest sympathy.

set and ending 30 minutes before sunrise the following morning.

SECTION 9—These restrictions will be in no way construed as supplementing or replacing existing air raid instructions on blackouts.

SECTION 10—The rules, regulations and restrictions upon lighting herein prescribed shall prevail during the period of the war or so long as the rules adopted by the military or naval authorities of the United States do not conflict herewith. The provisions of this ordinance shall not be applicable to the area within any Military or Naval establishment operated under the direction or supervision of the United States Military or Naval authorities, the regulation of which shall be by the Military and Naval authorities of the United States Government.

SECTION 11—PENALTIES FOR VIOLATION: Any persons, firms, or corporations violating any of the provisions of this order shall be guilty of a misdemeanor and upon conviction thereof shall be fined not exceeding \$100.00 or imprisoned for not more than 30 days, or both.

SECTION 12—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 13—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 14—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 15—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 16—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 17—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 18—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 19—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

County Chairmen Meet With Mrs. McDonald

An enthusiastic group from several county centers met with Mrs. McDonald on Thursday of last week to check up on the work that has been accomplished in the different communities and to make further plans. The following places were represented—Clermont Harbor, Kiln, Logtown and Waveland. Each reported three training courses completed but all agreed there is urgent need for more training along other lines and ways and means were discussed for getting instructors for same.

Air Raid Wardens Meet

About 60 air raid wardens met with Mr. Cox and Mr. Stevenson on Thursday night for a general check up on the training each had received and further instruction on the air raid wardens duties. It seems that quite a few lack only an hour or so of completing the required training for the insignia and Mr. Cox and Mr. Stevenson are urging all those who need this to try and get it by the time the arm bands arrive. Mr. Scott Morrill, Chairman of the Disaster Committee for the Red Cross asked each air raid warden to consider himself a member of the Disaster Committee.

First Aid Class For Men

There will be a First Aid Class starting for men on Tuesday night, July 21st. Any man interested in this class will please ask the Red Cross or this office where it will meet.

Mr. Rubel Cowart Will Meet the Members of the Rescue Squad at the Fire House on Friday Night July 17th at 8 o'clock.

Plans are being marked out for the Emergency Housing Survey, which will begin Monday, July 20. There will be a house to house canvass so be prepared to tell the Committee how many people you can accommodate in case of all emergency.

The scrap rubber drive ended very successfully—a total of 78,822 lbs. being collected by the filling stations in our county. There was a large quantity from the northern part of the county that went to Picayune and other Pearl River County centers.

We will soon have a great National advertising campaign for metal scrap. We ask all our citizens to support this as loyally as they did the scrap rubber.

The W. P. A. has discontinued its effort in the scrap drive for the time being. Watch this column for news and notices of collections of scrap.

NOTICE OF MEETING

The Women's Society of Christian Service will meet on Tuesday, July 21 at 3:30 P. M. at the home of Mrs. C. C. McDonald with Mrs. Charles Baker and Mrs. E. S. Baker as co-hostesses.

ANNUAL CHURCH FESTIVAL

Our Lady of the Gulf Church Held Saturday and Sunday Proves Success

The annual mid-summer church festival held each year for the benefit of Our Lady of the Gulf Catholic Church was held on Saturday and Sunday of last week and those in charge were well pleased with the number in attendance and the amount made which totaled approximately \$1200.00.

Father Gmelch and his assistants expressed their appreciation of the Brothers of the Sacred Heart, The Sisters of St. Joseph for their splendid co-operation.

The following committees had charge of the different booths and attractions: Bingo, Mr. and Mrs. Anthony Trapani, Mrs. Sam Piazza, Misses Levia and Miriam Engman, assisted by a number of the brothers of the Sacred Heart. Country Store, Mr. and Mrs. Henry LaRose, John McCabe, Comic Strip, Brother Timothy; Ice Cream, Mrs. Claude Monti; Cakes, Mrs. G. Y. Blaize, Mrs. Gus Temple, Mrs. C. G. Moreau and Joe Tedaro; Candy, Mr. and Mrs. Frank Martin, Mrs. Waldo, Misses Ann Benvenuti and Rosemary Blaize; Race Horses; Townsend Wolfe, John B. Blaize, Dominic di Benedetto, Gaines Kergosien, Bill Landry and Brother David; Soft Drinks and Sandwiches, Mrs. E. F. Fahey, Sr., Brother Anselm, Albert Garcia, Charles Bouis, Fred Fayard and Dr. M. J. Wolfe; Money Table, Roger Heitzman, Carl Arnold, Bill Staehle, Vincent Morreale; Ticket Sale: Mesdames Tom Egloff, Alfred Vassali, Blanche Favre, William Carbone, Pedro Boudin, and Miss Evelyn Monti. General helpers were Mr. and Mrs. Alvin Weinberg, Anthony and Peter Benvenuti, Alvin Mauffray, George Stevenson, John Duro, A. G. Favre, Ogden Kergosien, Alcine Saucier, Bernard Blaize, Mrs. F. X. Fabacher, Mrs. Charles Bouis, Mrs. Daur and especially Boy Scout Troop 217 under their Scout leader Fred Fayard.

Winners of the different cash attractions were as follows: \$20.00, Ervin Bontemps; \$5.00, Pedro Boudin, Sheets and Pillow cases, Miss Elsa Mauffray, Picture of "The Little Flower" donated by Joe Loicane and won by Mrs. James Taconi, Dolls donated by Mrs. Charles Matthews and won by Sister Claire; Holy Water Font donated by Mrs. Doucous, and won by Sister Zeda.

Those in charge report the fair a great success and that on both nights the booths ran out of supplies and that had the supplies been available the proceeds would have been much more. However, they appreciate the amount made and the spirit of the people which made this possible.

LEST YOU FORGET, JUDGE

HON. Ben Stevens announced as a candidate for the seat in Congress held by Representative Bill Colmer two years ago and a few days later, Judge Stevens withdrew from the congressional race, stating that he had made his announcement for Congress, presuming that Congress would adjourn by June 22nd of that year, having been guided by the statement made by Senator Barkley, Democratic Floor Leader of the United States Senate.

We are quoting from Judge Stevens' withdrawal statement, dated June 26th, 1940.

"Since the date of my announcement, it has become apparent to everyone that present international conditions, brought about by the European War, and the strong probability of our own government becoming involved, made it impossible and unwise for the adjournment of Congress on June 22, as originally planned. To the contrary, it is now generally conceded by all that Congress will be required to remain in session throughout the summer, and perhaps into the late fall.

"Because of the continued disturbing conditions, which have now become exceedingly grave, and which may easily spread to the Western Hemisphere, it is highly essential that our representatives in Congress should, in these days of great peril, be permitted to carry forward the extremely important work of Congress free from the distractions of a political campaign at home. Because of these newly developed conditions and the reasons assigned above, my inborn patriotism prompts me to willingly sacrifice my own ambition to serve you in the American Congress, and, therefore, I am this day withdrawing from the race for Congress in the Sixth Congressional District.

"I have stood, and now stand, ready to exert my best efforts to promote the safety, peace and best welfare of all of our people to the exclusion of all personal ambition and gain."

Judge Stevens has again announced for Congress.

We wonder if Judge Stevens now knows that this country is at war and that conditions are far more grave than they were two years ago, and that Congress is still in session, and it is now the middle of July, and that if he felt two years ago that members of Congress should be permitted to carry forward the extremely important work in which they are engaged, free from the distractions of a political campaign, why should he have so suddenly changed his mind, and why should he now be running around the District, attempting to take advantage of Mr. Colmer who is on his job in Washington, and making charges against Mr. Colmer, that are unfounded and untrue.

According to Judge Stevens in his withdrawal announcement of two years ago, his inborn patriotism prompted him to sacrifice his own ambitions to serve in the American Congress. We wonder if the Judge has lost his patriotic feelings and whether his personal ambitions have not surmounted his patriotism.

Mr. Colmer has made the Sixth District a splendid representative. He has been on the job; has remained on the job and has voted his own convictions, many times contrary to the wishes of his friends, but with the thought uppermost in his mind that he was doing his duty as he saw it. We, in this District, should feel justly proud to be represented by a man of the type of Bill Colmer, who is loyal and sincere, and who holds the welfare of his country above any personal ambition, or gain.

We feel certain that the people of this District are going to return Bill Colmer to office, and will say to Judge Stevens by their vote, that on June 26th, 1940, you withdrew from the Congressional race and tried to create the impression that you were a real patriot, and that you were willing to make sacrifices due to the conditions that existed at that time; that the conditions at this time are far worse, and if you have all the patriotism that you spoke about having two years ago, then you should not have announced for Congress this year and should have allowed Mr. Colmer to remain in Washington to attend to his duties, free from the worry of a political campaign at home.

Drive slowly and save your tires; they are worth almost as much as your life.

By the time a man reaches the age of understanding the value of rest, it does him little good.

Buy a War Bond this month; help swell the coffers of the nation and fight inflation on the home front.

The man who succeeds gives more thought to the planning of his work than to the program of his vacation.

NOTHING DOING, MR. COLLINS.

THIS newspaper received from the Ross Collins Campaign Headquarters, under date of July 11th, a mat advertising Mr. Collins and his candidacy for the United States Senate, together with a form letter, advising us that this mat was submitted strictly as a news item and not because of any advertising space their office, or any of their representatives had purchased from us.

This is the only campaign headquarters in the state, that has flooded newspaper offices with news items about their candidate and expect a lot of free advertising.

When Mr. Collins made his announcement, he paid the Mississippi Press Association One Hundred Dollars. This is an agreement that the members of the Mississippi Press Association have as to the charge for State Candidates. The local newspaper receives nothing for this announcement, and his Headquarters sent out a news release on this expecting the newspapers to play it up.

We think it is about time that Mr. Collins and his campaign managers, one of whom is a former newspaper man, realize that newspapers are not run on air. The cost of the mat sent us, which is purely advertising, under our rates would amount to about fourteen dollars. We can assure Mr. Collins and any other candidate that we are not in the newspaper business for our health, and that we are not doing any free advertising for candidates. It would be unfair to our local advertisers, who are our neighbors and close friends, to charge them, and then allow candidates to fill our paper with a lot of free political advertising.

The editor of this paper has been a small-county politician for a number of years, and he it said to the credit of the boys who run for county office, that they pay for all advertisement or printed matter that they get from the newspaper, and we see no reason why the newspapers of the State of Mississippi should be made the goat in political campaigns where men spend fifty and sixty thousand dollars in a campaign to be elected to an office that will pay ten thousand dollars per year, and for the full term would not return them the amount of their campaign expenses.

The candidates can rest assured that this is one newspaper that is not going to allow this to happen. If Mr. Collins, or any of the other candidates wish any advertising, they know our rates, and all political advertisement must be paid for in advance.

A PATRIOTIC PEOPLE

HANCOCK County is very proud of the record that it made in the special Rubber Salvage Campaign. There has been collected 78,822 lbs. of rubber, an average of 7 lbs. per person. The people of Hancock County can always be depended upon to come through in a pinch. In every drive and every movement since war has been declared, for which they have been called upon, they have gone over the top.

The people of Hancock County are a peaceful, lovable type, and usually go about, tending to their own business, keeping in mind that each person is his own master. They are of very liberal thought, believing in freedom of thought and religion. There is nothing narrow about the people in our county. They are thoroughly patriotic and feel that they have something worth while fighting for.

We, down here on the coast, feel that we are living in God's country, free from the bias and prejudice of the outside world. We want to continue living this way, and well do we realize that we could never, under any circumstance, adjust ourselves to living under the regime of the governments of our enemies. These are the thoughts that inspire the people of Hancock County to do their utmost to help in our war efforts. These are the thoughts that inspired the men who had charge of the special Rubber Salvage Committee; several of these men having come to live in our midst only a short while back, but who have had instilled into their blood the spirit that exists here in Hancock County.

We are justly proud of the record that our people are establishing. We are proud of the record that our boys are making in the armed forces of our country, and we want them to feel that we at home will do our utmost to help them to carry on the fight. We believe that our people are ready and willing to make every sacrifice necessary to help in this war effort, and will do it with a smile, and be happy in the thought that they were allowed to help.

A REAL JOB

War has brought new and vitally important jobs to the retailers of this country.

The pinch of shortages is only just beginning to be felt by the bulk of customers. Stocks of certain kinds of goods which are no longer manufactured are dwindling fast. Even in the food field, many items will disappear. In all fields, the consumer will have a smaller range of choice than he has been accustomed to.

Some one of the retailer's new tasks is to help the consuming public make, with as little discomfort as possible, the great adjustments in living standards resulting from war's enormous demands on our productive resources. And most retailers of the country, little ones as well as big, are cooperating to the limit of their abilities in doing that. They are featuring abundant, reasonably-priced foods and manufactured goods. They are helping the consumer choose suitable and satisfactory substitutes for scarce and costly items. They are showing us how we may avoid waste, and make what we buy go farther.

On top of that, they are doing other work of great importance to the war effort. They are, for example, aggressively selling and promoting the sale of War Stamps and War Bonds at their own expense, and without a penny of recompense. They are cooperating with the government in fighting speculation, profiteering and hoarding. They have accepted great responsibilities, and they are discharging them fully.

The retailers are protecting our standard of living to the greatest possible extent. While they can't keep us supplied with "luxuries as usual" in these times, they are doing a real job, a vital job, in our interest.

Hancock County Men in "The Service"

The Sea Coast Echo wishes to advise the parents or relatives of any of these men that it will gladly mail a copy of the paper to the boys if their address is given to the office. The newspaper will bring direct to the men away from home news of what the folks back home are doing and we hope this service will be one which they may enjoy.

The following list of names was supplied The Echo and should any service man's name be omitted it would be appreciated if it would be sent in.

It is often overlooked that our Declaration of Independence and Constitution did much more than establish America's freedom.

Along with our new liberty went responsibility; with our personal and political privileges we also assumed sacred obligations.

There is nothing fixed about freedom—it must be purchased, over and over. We are now engaged in a total war to defend our independence, as we face our foes on land and in the sea and air.

Economy and sacrifice are both essential to victory. To keep a substantial cash balance in the bank and invest your surplus in war savings stamps and government bonds is to be patriotic.

Electric Cookery

Preserves Essential Minerals & Vitamins in Your Food

Total war demands the utmost from everything we use.

Today we know that energy and stamina depend largely upon utilization of the vitamins nature stores up in our foods.

Exhaustive laboratory tests have shown that controlled electric cookery saves an average of 91% of the five essential vitamins—food elements that might well be called

"THE COURTSHIP OF ANDY HARDY," A. & G. SUNDAY AND MONDAY

America's No. 1 Family

"The Courtship of Andy Hardy" is one of the most eagerly-awaited motion pictures on the market. Each Hardy picture achieves this distinction. No other films have so loyal a following. "What will Andy Hardy do Next?" is an important national question.

"The Courtship of Andy Hardy" answers it in a continuation of the adventures of America's number one family. It is destined also to serve another purpose for it elevates to a position of importance another Andy Hardy sweetheart, Donna Reed. As the latest girl in Andy's life, she wins a role coveted by every young actress in Hollywood. She follows a trail blazed before her by Lana Turner, Judy Garland, Martha O'Driscoll, Kathryn Grayson, Diana Lewis and Patricia Dane, all of whom bounded up the screen ladder after auspicious roles in Hardy films.

Reunited in the roles that have endeared them to the hearts of American audiences are Mickey Rooney, after his greatest success in "Babes on Broadway," Lewis Stone, Fay Holden, Ann Rutherford, Sara Haden and Cecilia Parker, who returns as Andy's sister after being absent from two pictures.

Donna Reed won her role after outstanding tests for the part. She is the former queen of Los Angeles City College, where she was discovered less than a year ago and signed to a Metro-Goldwyn-Mayer contract. Since then she has played "The Get-Away," "Shadow of the Thin Man" and "The Bugle Sounds." "The Courtship of Andy Hardy" resumes immediately where "Life Begins for Andy Hardy" left off. Andy is found hard at work in the Carvel garage, still struggling to clear up his New York debts. The story concerns his and Judge Hardy's combined efforts to straighten out the lives of an "ugly duckling" girl, Miss Reed, and her bitter, separated parents.

George B. Seitz continues his record of having directed all but one of the Hardy pictures by conducting "The Courtship of Andy Hardy" and doing a top job of it.

Library Notes

The Library is indebted to Mrs. Milton A. Phillips for the gift of thirty-nine good books most of which are for boys. There are quite a number of thrillers, boys so get in line to get what you have been asking for some time. What Happened at Midnight and When the Clock Ticked should provide sufficient thrills for one boy.

For the serious minded the library has a new shipment of new books from the Cloverknob Home for the Blind. Come in and look these over. There are some good ones.

The library has begun to wonder what they would offer the girls when Mrs. T. T. Robin sent in a large number of good books which her girls had out grown and some of them are Pretty books so there are quite a lot for the girls. "Come a-runnin' girls and see what we have."

THE County AGENTS' COLUMN

County Delineation Work

A number of Agricultural Agencies both State and Federal are now carrying on programs in this county. Each of these agencies, for its own individual purposes, has or has designated certain meeting places to which people from a specific area are asked to come. These districts and other sub-areas seldom coincide with each other and one agency may ask the people of a certain area to come together for meetings at one center while another agency may ask them to a different place. This situation has created considerable confusion in the mind of the farmers anxious to work with all agencies that can help to do his part in the food for freedom program. Therefore the different Agricultural Agencies which are in this county, Extension (County and Home Agent), Farm security Administration, A. A. and Vocational Agriculture, have divided this County into five communities and twenty two neighborhoods, and each agency will hold meetings for the same group in the same neighborhoods and communities.

Farmers and business men who have spent most of their lives in Hancock County and who are familiar with the people of the County, neighborhood and community boundaries assisted with the delineation work. Mr. Thomas W. Dossett, Mr. George Curet, and Mr. Tom Martin are some of the men that were helpful in completing this work.

Demand for Highest Quality Dairy Products.

There has been an insistent plea (perhaps demand) that all dairy products for Lend-Lease shipment, as well as that purchased for consumption by our soldiers in camps in this country, and that purchased by eating places, frequented by armed forces, must be of highest quality. This demand still prevails and must be observed by all Mississippi processing plants, if their products are to get any consideration from the above sources of market outlet. The processing plants have no choice in the matter and will be derelict to a profound duty, if not unpatriotic, should they not adhere to these fixed high standards of quality in purchasing the raw products.

Dirty, bacterial contaminations of milk going into cheese manufacture, such as will cause yeast or other bad fermentations, cannot be tolerated in cheese going into the above mentioned markets. Raw products going into cheese making must be of such high quality that the finished cheese will stand up for 10 to 18 months or longer. Shipping conditions are now such that the holding time on cheese, or other products is uncertain.

Quality Factors:

The following are some of the factors which cause low quality milk and cream as it is produced on Mississippi farms: weedy flavors—bitter weed flavor is very common through May and June and under

ORTIE THEATER PRESENTS "ALMOST MARRIED" SUN-MON.

Rolling comedy and songs, you will want to whistle will be the screen fare for patrons of the Ortie Theater starting next Sunday and Monday when Universal's gay tune film "Almost Married" is scheduled to begin its engagement. Jane Frazee and Robert Paige are co-starred. The supporting cast includes Eugene Pallette, Charles Coleman and Elizabeth Patterson.

The picture story relates a small-town singer's efforts to make good in the big town and the mad mix-up that involves her in a marriage masquerade with a wealthy, curio-collecting bachelor.

Has Single Role

Miss Frazee, of course, plays the singer and warbles songs by the well-known tunesmith team of Eddie Chero and J. P. Press. In addition, the novelty hit, "Binjee, Binjee, Scoota," is introduced by its authors, Slim and Slam, live instrumentalists.

Comedy and romance, in equal quantities, occupy Miss Frazee and Paige while Pallette, Coleman and Miss Patterson devote themselves strictly to the chuckle-and-guffaw portion of the film. The principals are aided and abetted in the laugh-raising by such capable performers as Maude Eburn, Will Lee and Olin Howland.

Three Scribes Credited

The screen play is by Hugh Wedlock, Jr., and Howard Snyder from the original story by Theodore Reeves.

Charles Lamont directed for Ken Goldsmith, associate producer. Jerome Ash, veteran cinematographer, supervised the camera work.

certain conditions, the summer thru. Bitterweed growth can be controlled by clipping carefully two to three times each year, preventing maturing of seed. Improved soil fertility and thickening of coverage (Sod) will tend to control bitterweed. Keeping cows off bitterweed pastures for several hours just prior to milking will reduce the tendency to bitter flavored milk. It is the patriotic duty of all dairymen to prevent milk losses through bitter flavors. It is mandatory to plant operators that they refuse to purchase and to process bitter flavored milk. Milking in dirty, dusty barns, or sheds, failing to wash or mop udders and flanks before milking other careless or unsanitary practices which permits access of filth, trash or any contaminating influences entering milk, milking with dirty hands, saving milk from mastitis or otherwise diseased udders, failure to thoroughly wash and to sterilize dairy utensils, allowing cows to wade in and to drink from filthy, stagnant pools of water, failure to cool milk as low as is practical and as quickly as possible after it is drawn, mixing warm milk in with milk already cooled, failure to market as often as is practical and too much time consumed in transit under very adverse transit conditions are all contributing factors toward low quality milk being delivered to Mississippi processing plants. They can all be corrected in a practical way.

Economic Production:

Perhaps dairy farmers would do well to cull unprofitable producers now while they are in good flesh and prices on such cull cows are reasonably high. An economic feeding program should be followed. The savings of an abundance of high grade roughage for next winter and planning for supplementary grazing crops should be observed.

Wasted money is wasted lives. Don't waste precious lives. Every dollar you can spare should be used to buy War Bonds. Buy your ten per cent every pay day.

ANNOUNCING Merrimack Mutual Fire Insurance Company

SAVING WITH SAFETY

Merrimack Mutual receives highest rating of "A - Excellent" by A. M. Best Co., insurance authorities.

Full legal reserves maintained for the protection of policyholders.

Year round local service and advice through an agent in your own community. A personal representative always at your call—in effect, a branch of the home office "on the ground" to safeguard your interests.

Losses paid within 24 hours of receipt of satisfactory proof of loss (where state laws permit).

Every loss paid in full since incorporation in 1828 despite the numerous wars, confagurations and depressions that have occurred during this period.

For over 100 years of that time, it has returned savings of 20% percent to policy holders.

Lecture By Mrs. Louis Pate on Tuesday, July 28

Under the auspices of the Hancock County Library Board Mrs. Louis Pate will lecture on "Opera Houses of South America" on Tuesday, July 28, at 10 a. m. at the Episcopal Parish House. This will be not only interesting but informative as well as Mrs. Pate can give first hand information on this subject. A silver offering will be taken for the book fund of the library. It is hoped that there will be a large number out to hear this.

SECTION 6.—SIGNALLING.—All persons are warned to exercise extreme care in the use of lights in order to avoid any suspicion of signalling.

SECTION 7.—Any lights or system of lights not included in the above and which are determined by proper military or naval authority to be objectionable shall be dimmed or eliminated.

SECTION 8.—All the above restrictions shall be effective only during the period 30 minutes after sunset and ending 30 minutes before sunrise the following morning.

SECTION 9.—These restrictions will be in no way construed as supplementing or replacing existing air raid instructions on blackouts.

SECTION 10.—The rules, regulations and restrictions upon lighting herein prescribed shall prevail during the period of the war or so long as the rules adopted by the military or naval authorities of the United States do not conflict herewith. The provisions of this ordinance shall not be applicable to the area within any Military or Naval establishment operated under the direction or supervision of the United States Military or Naval authorities, the regulation of which shall be by the Military and Naval authorities of the United States Government.

SECTION 11.—PENALTIES FOR VIOLATION: Any persons, firms, or corporations violating any of the provisions of this order shall be guilty of a misdemeanor and upon conviction thereof shall be fined not exceeding \$100.00 or imprisoned for not more than 30 days, or both.

SECTION 12.—If any provisions, section, sub-section or clause of the foregoing ordinance shall be held invalid or unconstitutional the remaining provisions, sections, sub-sections or parts thereof shall remain in full force and effect.

SECTION 13.—This ordinance, being for the immediate and temporary preservation of public safety and welfare shall take effect and be in force from and after its adoption and approval, but the same shall nevertheless be published as provided by law.

This ordinance, having been first reduced to writing, was read and considered section by section, and then as a whole and upon motion duly seconded, was finally passed and adopted section by section, and then as a whole by the following vote, to-wit:

HOME Agent Notes

LAST week at 4-H Club camp the agents and 4-H Members ate some figs that were canned in a thin sirup according to sugar allowance. The figs were served at breakfast in medium servings, none were carried back to the kitchen.

In canning use your regular recipe but use sugar according to allowance. If a thick sirup is still desired corn, cane or maple sirup may be used along with the allotted sugar making sirup of desired consistency and can in regular manner. This will give a different flavor but next winter the want for sweets will make up like the new flavor.

If fruits are to be canned in sirup, allow up to 1/2 cup of sugar to make sirup in advance, to be ready when needed.

Sugar and Water Proportions:
For thin sirup use 4 to 5 cups of sugar to 1 gallon (4 quarts) of water; for moderately thin sirup, 8 cups of sugar to 1 gallon of water.

To make a sirup, boil sugar and water about 5 minutes. Remove any scum.

With Honey:
Sugar may be saved in canning by replacing up to half the sugar called for by an equal quantity of honey. For a thin sirup, use 2 1/2 cups of sugar and 2 1/2 cups of honey to 1 gallon of water.

With Corn Sirup:
Corn sirup may replace up to 1/3 of the sugar called for in canning. For a thick sirup, use 3 1/3 cups of sugar and 1 2/3 cups of corn sirup. Raw fruit may be packed into the jars and the hot sirup poured over it. Process as for a cold pack.

A better pack is obtained if the fruit is precooked in the sirup, then packed into the jars and covered with the hot sirup. Process as for a hot pack.

Drying Figs
There are three methods of drying figs which may be used with our Mississippi figs, according to Miss Mary E. Joney, food preservation specialist, State College. The figs to be dried should be ripe, then are usually used in canning, and Method I is to put the ripened but still firm fruit in a soda bath (one cup of baking soda to 6 quarts of figs for canning.) Allow to stand for 10 minutes after the boiling water is poured over. Wash to remove soda and drain on a heavy cloth. Less crushing of the figs will be done if they are handled in small quantities.

They may be dried either in the sun and finished in the oven or started in the oven and then placed in the sun and the drying completed in the oven. It is more important that figs be screened from insects, than most things, because of the sugar content. If an oven with heat control is used the temperature for starting should be 120 degrees Fahrenheit and when the drying is half completed it may be increased to 140 degrees.

If they are large and meaty figs they should be slit open on one side and pressed open or flattened when they are half through drying. The finished figs should be soft and pliable but dry enough so that the juice does not come out when the cut side is rubbed with the hand.

The finished figs when removed from the oven should be packed closely into a tight container which will exclude insects as small ants, as well as moisture. A tight wooden box lined with parchment or oiled paper closely folded is satisfactory as are tin cans such as powder cans, or glass jars that have tight fitting lids.

Method II. Make a boiling lye solution of 2 tablespoons concentrated lye to 2 quarts of water. Dip the firm ripe figs into this solution for 1 minute and plunge immediately into cold water and rinse thoroughly. At the end of this process the waxy outer skin should be cracked. Drop into a prepared lime water solution (1 ounce lime to 1 gallon water.) Leave in lime water for 1 hour.

Drain and put in clean cold water for one-half hour. Drain until no surface moisture is apparent. Place on trays or cloth and dry either in the sun or on a drier until waxy, and complete in a cool oven.

Method III. Dissolve 1 ounce lime in 1 gallon of water. Into this lime-water drop 2 quarts of ripe figs and leave for 1 hour. Drain and put in clean, cold water for one-half hour. Make a sirup by boiling for 10 minutes 1 quart of sugar in 1 quart of water. Drain the figs and drop into the boiling sirup. Let boil rapidly until clear. Drain; place on trays, stem end up, and dry either partly in the sun or entirely in the drier at 130 degrees to 150 degrees Fahrenheit.

A blue print for an evaporator that can be made at home and capable of drying 2 bushels of vegetables a day can be secured from Home Demonstration Agent's Office.

IT TAKES SO LITTLE
CONCRETE
TO MAKE YOUR FARM MORE PRODUCTIVE

Concrete improvements will help you produce
more eggs, milk, beef, pork for war needs

It takes very little portland cement to make those needed improvements around the farm. You can haul back enough on your next trip to town to make a good start.

For instance, you need only 20 bags of cement—less than a ton—to build any one of these things:
● 250 sq. ft. of 4-inch floor for feed lot, barn, or hog or poultry house.
● 166 sq. ft. of 6-inch wall.
● Two big, 8-foot long watering troughs.
● 125 sq. ft. of 8-inch thick foundation.
● A 10-can capacity insulated milk cooling tank.
Plan to build up your place now with economical, long-lasting, fireproof concrete. We'll gladly send free plans and suggestions. You can do the work yourself. Or ask your cement dealer for names of concrete contractors.

AN ORDINANCE PRESCRIBING RULES AND REGULATIONS FOR DIMMING, AND RESTRICTING THE USE OF LIGHTING IN THE CITY OF BAY ST. LOUIS.

WHEREAS under date of May 30th, 1942, by virtue of a proclamation issued by Lieutenant General Walter Krueger, commanding the Southern defense command the entire area of the states of Texas, Louisiana, Mississippi, Alabama, and Florida bordering upon the Gulf of Mexico and in certain instances, counties inland from the shore, were designated a military area; and

WHEREAS the office of the Corps Area Commander of the Headquarters Fourth Corps Area of the United States Army has issued rules and regulations for the control of shore lighting along the shore line of the State of Mississippi and other states; and

WHEREAS the City of Bay St. Louis, Mississippi, desires to adopt appropriate rules and regulations to cooperate with the enforcement of such rules and regulations, as promulgated as aforesaid, the general welfare, safety and protection of the lives and property of the citizens of the City of Bay Saint Louis, Mississippi requiring the adoption of such rules and regulations;

NOW, THEREFORE, BE IT ORDAINED AS FOLLOWS:

SECTION 1.—The restrictions hereinafter prescribed shall apply within the city limits of Bay Saint Louis, Mississippi.

SECTION 2.—PROHIBITED LIGHTING: The following types of lighting are prohibited within the area designated in SECTION 1 above:

(a)—Illuminated signs—neon or other.

(b)—Flood lights on top of or otherwise illuminating buildings or monuments.

(c)—Bright illumination at baseball games, football games, race tracks, public tennis courts, and other such places of amusement.

(d)—Exterior lighting, except street lights, within 500 yards of the shore line.

(e)—Bonfires and all other forms of lighting on beaches.

SECTION 3.—RESTRICTED LIGHTING: Outside lighting within the area designated in SECTION 1 above, will be restricted as follows:

(a)—Street lights will be shaded from above and where visible from the sea will be blacked out on the seaward side. Wattage will be reduced to a minimum consistent with public safety.

(b)—Where street lights shine upon reflecting surfaces, such lights will be further shaded, or surfaces will be neutralized by painting or by other methods.

(c)—Illumination of show windows, store fronts, theater fronts, filling stations, etc., which are more than 500 yards from the shore line will be reduced to an absolute minimum.

SECTION 4.—INTERIOR LIGHTING: Interior lighting will be restricted as follows:

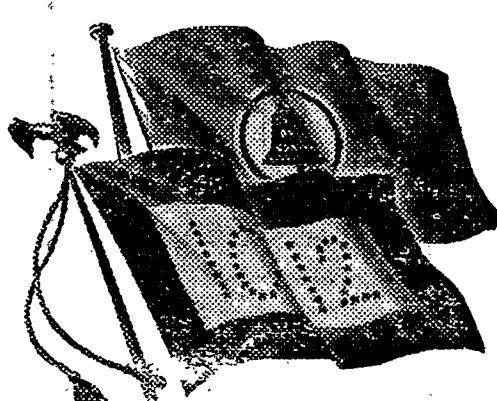

(a)—All of that portion of all dwelling houses, apartment houses, hospitals, hotels, tourist camps and other places used for dwelling purposes, within 500 yards of the shore line, shall be blacked out above the second floor on all sides, except that side away from the shore line.

(b)—All buildings within 500 yards of the shore line, not included in Sub-section "(a)" next above, shall be blacked out above the first floor on all sides, except that side away from the shore line. The interior lighting on the first floor of such buildings shall be reduced to a maximum of six foot candles, as measured by a standard foot candle meter, held at an angle resulting in the highest possible reading at a distance of six feet from the window or other opening.

SECTION 5.—MOTOR VEHICLES: (a)—Motor vehicles are prohibited on beaches at night. (The word "Beaches," as used herein, shall not be construed to include streets and roadways now in existence used by the public.)

(b)—No bright headlights or spotlights will be permitted on highways or streets within 500 yards of and paralleled to the shore line. DIMMED LIGHTS ONLY WILL BE PERMITTED.

(c)—Parking lights only shall be used within a distance of 500 yards

THEY ALSO SERVE

Telephone offices now proudly display service flags—as a patriotic tribute to those in the armed forces of the Nation.

Although the star figures in the center field of white show the number of Southern Bell men now in the armed services, the flag might also symbolize all Southern Bell employees—for all are wholeheartedly serving their country in this great world crisis.

The telephone, fittingly termed the nerve center of the Nation, is even more vitally important in war than in peace. Thus, the telephone men and women at home whose lives are devoted to its dependable and efficient function are definitely—in the war, all stand ready for emergency calls at any hour of any day—operators, line-men, construction men, repair men—everybody.

In or out of uniform, telephone folks are doing their war work—for they all serve, and the spirit of service was never more in evidence than it is today.

My Suggestions For Future Progress In Forestry—By D. H. Martin

Much progress has been made in the past 15 years in conserving and rebuilding our forest but there is lots of room for more improvement work to be done.

This Nation's life depends upon the forestry which we hold so dear but neglect so easily. Therefore, we must take every step possible in conserving and rebuilding our forest. The National and State Government has done much to control forest fires, which is the greatest enemy to our forest, and to carry on an educational program to improve our forestry management. These agencies have done even more than their part to encourage our citizens to improve their forest practices. Through these services there has been many demonstrations carried on to prove the value of good forestry practices and even though so much work has been done, many of our people have not been reached.

The problems of conserving and rebuilding our forests will be a difficult one until more of our people have been made to see that it is for their own good, and yet we feel that there has been fair cooperation when we consider that it takes time to reform the minds of our older people and develop the minds of the younger ones.

This important subject should be taught in every school in this state where every boy and girl will have an opportunity to know more about the problems confronting us. Educational picture shows, lectures, and news articles are most important. Demonstrations should be set up at the various schools to teach the children and parents the art of tree planting. To let them have the pleasure of seeing trees grow and have the trees to use in the real study of forestry. Forestry as a crop can here be stressed and will reach the greatest number of individuals possible.

I believe that idle lands such as state and school lands should have a definite reforestation program under the supervision of the state and county in which the land is located. The planting, thinning, pruning, and proper harvesting methods should be carried on under the supervision of experienced foresters. These lands would then serve as a practical demonstration to the citizens in this particular area where the lands are located.

The Conservation School, sponsored by the Federal Cartridge Company and operated by the Extension Service of Mississippi, has held a session each summer since 1937. "Boys' Conservation School," sponsored by the Mississippi Forestry & Chemurgic Association, held their first two schools in 1941. These schools should be continued even on an enlarged base as they offer great opportunities to the young boys in Mississippi. Through these schools the rebuilding and conserving our forest will be made easier and more successful in the future. If schools of this kind could be held in every county, to give all boys an opportunity to receive such fine instruction as I received at one of these schools last year at Percy Quin State Park, it would be a great blessing to our country.

BOARD OF SUPERVISORS, JULY, 1942

THE STATE OF MISSISSIPPI HANCOCK COUNTY

BE IT REMEMBERED, That at the above stated term of the Board of Supervisors of said County, an order was made by said Board, which was in the following words and figures, to-wit:

"WHEREAS under date of May 30, 1942, by virtue of a proclamation issued by Lieutenant General Walter Krueger, commanding the Southern defense command, the entire area of the states of Texas, Louisiana, Mississippi, Alabama, and Florida, bordering upon the Gulf of Mexico, and in certain instances, counties inland from the shore, were designated a military area; and

WHEREAS the Office of the Corps Area Commander of the Headquarters Fourth Corps Area of the United States Army has issued rules and regulations for the control of shore lighting along the shore line of the State of Mississippi and other states; and

WHEREAS the Board of Supervisors of Hancock County desires to adopt appropriate rules and regulations to cooperate with the enforcement of such rules and regulations, as promulgated as aforesaid, the general welfare, safety and protection of the lives and property of the citizens of Hancock County requiring the adoption of such rules and regulations;

NOW, THEREFORE, BE IT ORDAINED AS FOLLOWS:

SECTION 1.—The restrictions hereinafter prescribed shall apply for a distance of ten miles inland from the shore line within the territorial limits of Hancock County, Miss.

SECTION 2.—PROHIBITED LIGHTING: The following types of lighting are prohibited within the area designated in SECTION 1 above:

(a)—Illuminated signs—neon and other.

(b)—Flood lights on top of or otherwise illuminating buildings or monuments.

(c)—Bright illumination at baseball games, football games, race tracks, public tennis courts, and other such places of amusement.

(d)—Exterior lighting, except street lights, within 500 yards of the shore line.

(e)—Bonfires and all other forms of lighting on beaches.

SEC. 3.—RESTRICTED LIGHTING: Outside lighting within the area designated in SECTION 1 above, will be restricted as follows:

(a)—Street lights will be shaded from above and where visible from the sea will be blacked out on the seaward side. Wattage will be reduced to a minimum consistent with public safety.

(b)—Where street lights shine upon reflecting surfaces such lights will be further shaded, or surfaces will be neutralized by painting or by other methods.

(c)—Illumination of show windows, store fronts, theatre fronts, filling stations, etc., which are more than 500 yards from the shore line will be reduced to an absolute minimum.

SECTION 4.—INTERIOR LIGHTING: Interior lighting will be restricted as follows:

(a)—All of that portion of all dwelling houses, apartment houses, hospitals, hotels, tourist camps and other places used for dwelling purposes, within 500 yards of the shore line, shall be blacked out above the second floor on all sides, except that side away from the shore line, be eliminated.

(b)—All buildings within 500 yards of the shore line, not included in Sub-section (a) next above, shall be blacked out above the first floor on all sides, except that side away from the shore line. The interior lighting on the first floor of such buildings shall be reduced to a minimum of six foot candles, as measured by a standard foot candle meter, held at an angle resulting in the highest possible reading at a distance of six feet from the window or other opening.

SECTION 5.—MOTOR VEHICLES: (a)—Motor vehicles are prohibited on beaches at night. (The word "Beaches," as used herein shall not be construed to include streets within 500 yards of and paralleled to the shore line. DIMMED LIGHTS ONLY WILL BE PERMITTED.)

(c)—Parking lights only shall be used within a distance of 500 yards of the coast line when a vehicle is facing seaward.

SECTION 6.—SIGNALLING: All persons are warned to exercise extreme care in the use of lights in

WITH THE FISHERMEN AND OTHER SPORTS

By KANCHU KETCHEM

FISHERMEN of this section appreciate the efforts of the Fish and Game Commission in replenishing our local streams with fresh water fish and it is a pleasure say the anglers to return oversized fish to the water. One party fishing over the week end says that out of 30 green trout caught, 12 were thrown back. They measured about 9 1/2 inches. That's the spirit. Next year they will be over the limit size and can be caught again.

J. M. McConnel and son, Jimmy, caught 30 green trout Saturday and Sunday brought in 20 more. They are ardent fishermen from Waveland.

John M. Parker and friend Mr. Jenness, caught a nice string up Jordan River over the week end.

Bob Genin spent Sunday evening up Jordan river celebrating his birthday fishing with Dec Elliott and with Maurice Summers doing the paddling. This three-some has been fly fishing and casting for over 13 years.

Alden Mauffray and friend C. J. Gordon enjoyed a fishing trip Sunday afternoon. They caught their share.

Albert Hitt and Millard Toulme were out floundering and soft crabbing Tuesday night. They report

order to avoid any suspicion of signalling.

SECTION 7.—Any lights or system of lights not included in the above and which are determined by proper military or naval authority to be objectionable shall be dimmed or eliminated.

SECTION 8.—All the above restrictions shall be effective only during the period of 30 minutes after sunset and ending 30 minutes before sunrise the following morning.

SECTION 9.—These restrictions will be in no way construed as supplanting or replacing existing air raid instructions on blackouts.

SECTION 10.—The rules, regulations, and restrictions upon lighting herein prescribed shall prevail during the period of the war or so long as the rules adopted by the military or naval authorities of the United States do not conflict herewith. The provisions of this ordinance shall not be applicable to the area within any Military or Naval establishment, operated under the direction or supervision of the United States Military or Naval authorities, the regulation of which shall be by the Military and Naval authorities of the United States Government.

SECTION 11.—PENALTIES FOR VIOLATION: Any persons, firm, or corporations violating any of the

that 10 large flounders were caught.

Fresh water fishing seems to be best at the mouth of Jordan river just now.

Mr. W. S. Morrill says that they are biting most everywhere. He ought to know, as he is one of our best local fly fishermen.

Bill Brenford, carekeeper of boats at Bayou LaCroix bridge, has been busy the past week, repairing and placing numbers on the boats according to the new Navy regulations. Boats may be secured for fishing at this place.

Information to Fishermen. Large trout are now biting at the Red Beacon, St. Joe Lighthouse and Three Oaks Reef. Fishermen visiting these spots in the last few days have all returned with excellent catches.

Last week a party composed of M. Boulet, Dr. Battalora and Martin Milner, all of Waveland, made a trip from Bayou Caddy aboard Ed. Ortte's "Friendship" to Grassy Isle and Half Moon. All aboard enjoyed a good catch as well as a pleasant trip.

Ben Hille's "Mystery" carried a group of ardent fishermen from Bayou Caddy Sunday morning to nearby waters making a very large catch of speckled trout on the trip. The party consisted of Mr. and Mrs. Ben Hille, Mr. and Mrs. H. Grady Perkins, Sheriff and Mrs. Horace L. Kergosien, Mr. and Mrs. Lucien M. Gex and Dr. and Mrs. Louis Maumus.

Garland and Rusty Anderson report a fine catch of rat reds in the mouth of Bayou Caddy.
